TAKE THE SMART APPROACH TO VIDEO SURVEILLANCE

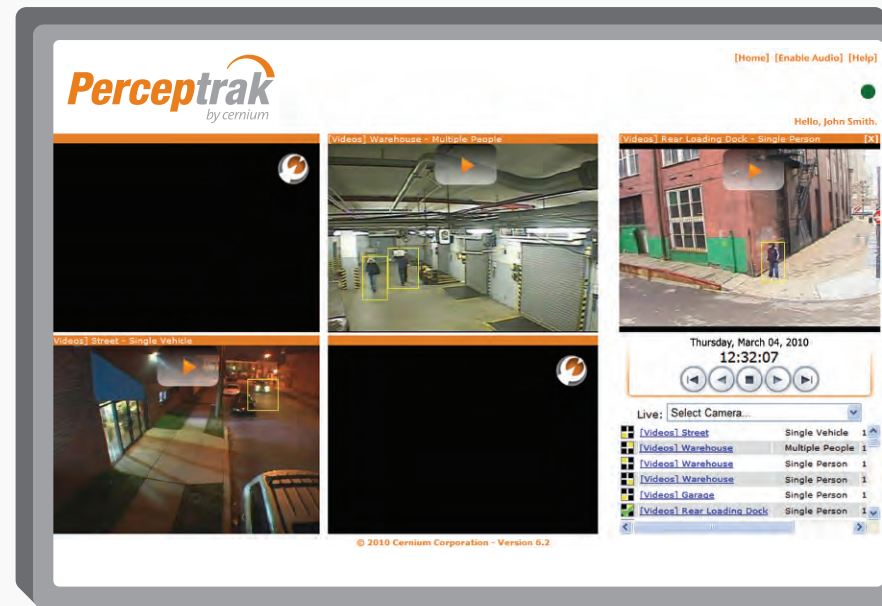

Perceptrak® by Cernium is now available as a software application that seamlessly integrates with Milestone™ XProtect™ Enterprise video management system.

Now you can better manage your operations and security personnel based on first-hand knowledge of what's actually relevant in the video. That's because Perceptrak analyzes video and adds meta data about the content to enable an information-driven approach. You define what's important and Perceptrak delivers it in real time so you can monitor, distribute, store and query video in a powerful new way.

COMMAND & CONTROL

Use Milestone Smart Client to launch Perceptrak

Use Perceptrak Alert Monitor to focus security personnel on events that require attention

POWERFUL ANALYTICS CAPABILITIES
Provides the most advanced analytics available, proven in dozens of demanding commercial installations, over 3 million hours of service

TAILORED TO SECURITY POLICIES
Allows any combination of behaviors on any camera, without additional licensing fees

INTUITIVE NAVIGATION
Displays easy to use, simple interface with point-and-click navigation that requires minimal user training

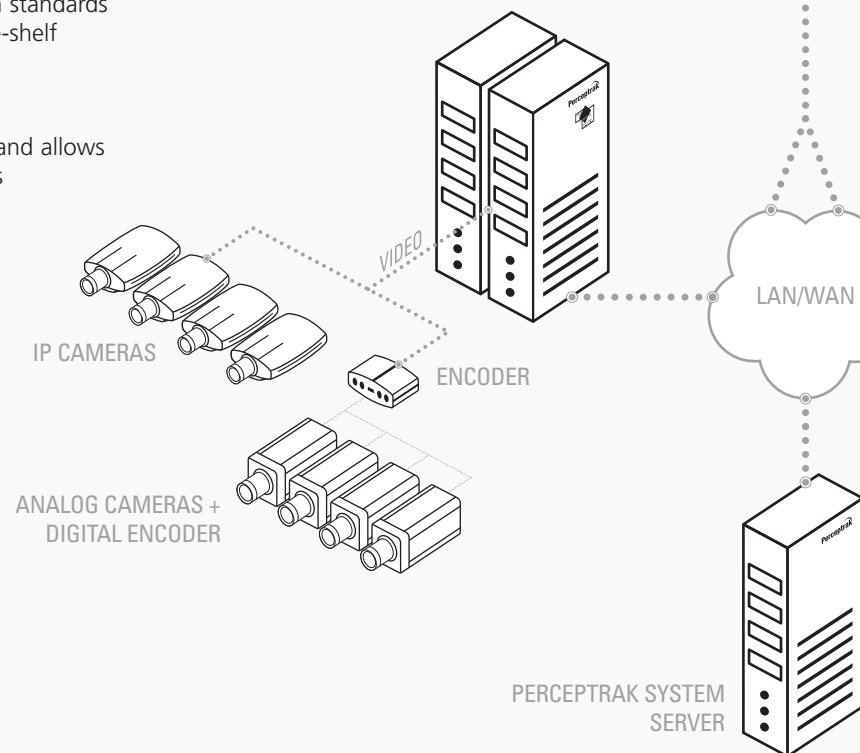

ANALYTICS & RECORDING

OPEN STANDARDS, COTS COMPATIBLE SOFTWARE
Delivers maximum design flexibility with open standards software that operates on commercial-off-the-shelf (COTS) hardware

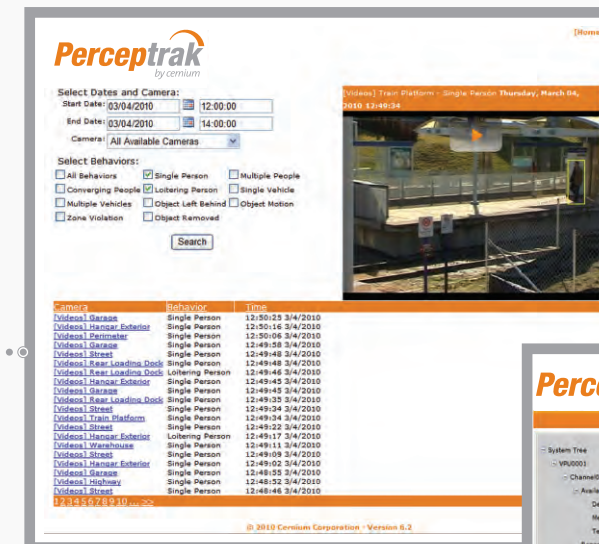

LOWER COST OF OWNERSHIP
Easily scales with video management system and allows hardware to be amortized over more cameras

OBSOLESCENCE-PROOF PLATFORM
Assures upgrade paths that support future analytics engine updates

MILESTONE RECORDING SERVER
PERCEPTRAK ANALYTICS SERVER

SYSTEM MANAGEMENT

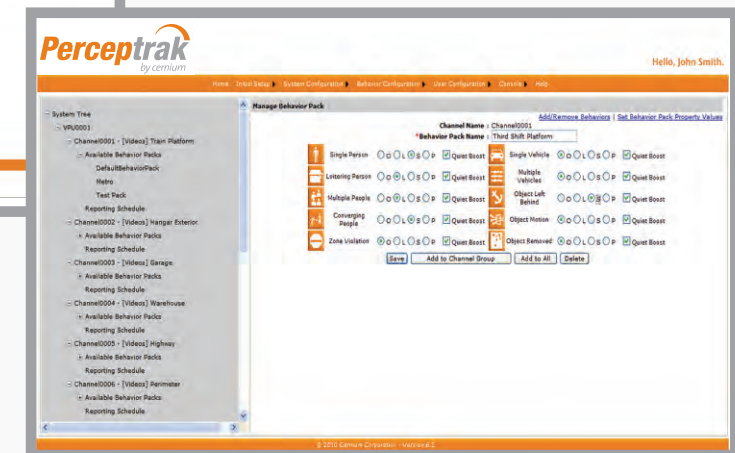

Use Perceptrak Query View for rapid event search

RAPID EVENT SEARCH
Conducts hyper-fast, meta data-based event search and video playback with intelligent query capabilities

SIMPLE SETUP
Automatically imports camera information from Milestone system for fast and easy system setup

SIMPLE CONFIGURATION MANAGEMENT
Uses simple point-and-click navigation to quickly and easily change camera, behavior and schedule preferences

Use Perceptrak Administrator View to define relevant events
